## Lord Hattersley, a Former Student, Visits Our School

Roy Hattersley visited The City School just before Christmas to see how life has changed since his school days.

Lord Hattersley was a student at The City School when it was The City Grammar School in the centre of Sheffield.

Lord Hattersley sat in on a French lesson and found it very different from his own days. "It's so much more friendly then it was when I was at school" he remarked.

Later he took a tour of the school and met members of Student Council. He was also interested to see his final examination results when he left the school in 1950 and noted that French was not his best subject.

The offer was made, and politely refused, to find a place in school for him to brush up on his French!

## Aim Higher Visit to Derby University

100 Year 11's visited Derby University to learn more about Higher Education opportunities. This included Taster sessions in Game Design, Forensics, Music Production and Light Microscopes. Students had the opportunity to use the UCAS website and learnt about the importance of preparing for their Personal Statements over the next 18 months, as well as meeting students and using the Student Union facilities (sadly for some, this did not include the bar!!) Thanks to Caryn Delaney and other Sheffield Futures staff for jointly planning and funding the day through Objective One funding. Well done to students for being such good ambassadors for The City School!

## Mobile Phones

May we remind you that all mobile phones, MP3 players, personal music players etc are banned from school. These items will be confiscated if they are seen or heard, and will be returned only to parents. Under no circumstances will the school be liable for any such items lost or stolen in the school, even these that have been confiscated by staff. Thank you for your co-operation with our policy.

Just 2% of Lesotho's population are connected to the national energy grid.

In the U.K. it is 100%
